New Class Teacher for Foxes Class- September 2024

Dear Parents,

We are delighted to let you know that we have been able to appoint an excellent teacher for Foxes from September. Mr Luke Webbe is an experienced teacher from a school with an excellent reputation. He has experience in teaching both Years 3 and 4 and having seen his children's books, I know that he holds the same high standards and expectations that we do at Broughton.

Mr Webbe has many additional skills to bring to Broughton. As well as being an excellent classroom practitioner, he will lead our Maths across the federation. He is a leading teacher in computing, having organised training for large groups of teachers as well as improving the computing curriculum and provision in his current setting. He is very keen on all sports and in ensuring that he inspires everyone to get involved in a variety of both team and individual games. He is particularly keen on basketball, which will be a great addition to the sports that we already play.

We will ensure that Mr Webbe comes into school to meet the children and he will be able to introduce himself to you all as well.

If you have any questions, please don't hesitate to ask.

Kind regards

Lucy Macey
