BROUGHTON PRIMARY SCHOOL: The Parent Questionnaire – spring 2022

FEEDBACK TO PARENTS

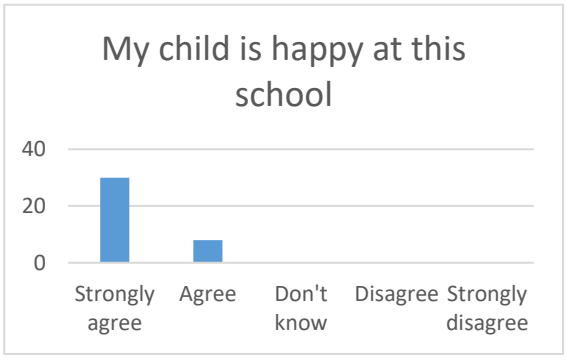

We recently undertook a parent questionnaire to give parents and carers the opportunity to share their thoughts about the school. We want to pass on our thanks to all who responded, which was half of the total parent body.

The answers and additional comments provided are extremely useful, enabling us to gain insight into particular aspects of what we do and how we do it, and to inform development planning for the immediate future and the next academic year.

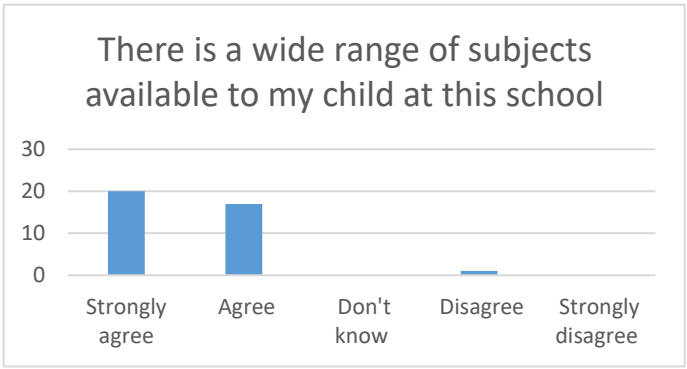

We carried the survey out at both schools in the Federation and the responses had many strong similarities. One of the headline responses I'm delighted to tell you is that 100% of parents across both schools believe their child to be safe at school. We never underestimate the fundamental importance of this and will continue to be vigilant in making sure your children are safe.

At Broughton, 100% of respondents also strongly agreed or agreed that their child is happy at school, which we are delighted to have confirmed. Given all the challenges that everyone has faced in the recent past, this is a remarkable piece of feedback! The additional comments many of you provided, about the quality of care and the dedication of the staff, were much appreciated.

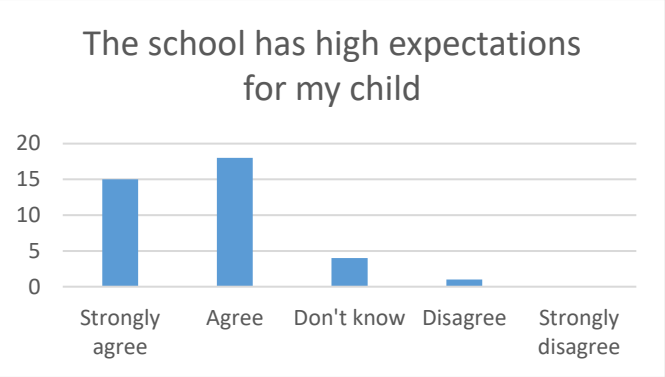

There is strong agreement – 97% – that the children have access to a wide range of subjects in the school curriculum. The same proportion felt the children have access to a wide range of clubs and activities – 97% of respondents agreed or strongly agreed with this statement. This gives us confidence that we have a balanced provision that provides the foundations of a well-rounded education.

Overall, 95% of the total responses were positive – that is, either in strong agreement or agreement with the statements made. 93% of those parents who had raised concerns agreed or strongly agreed that their issues have been acknowledged and acted on quickly. A very small number of parents whose children have SEND responded, but as always, we will work to make sure that every child has the support they need.

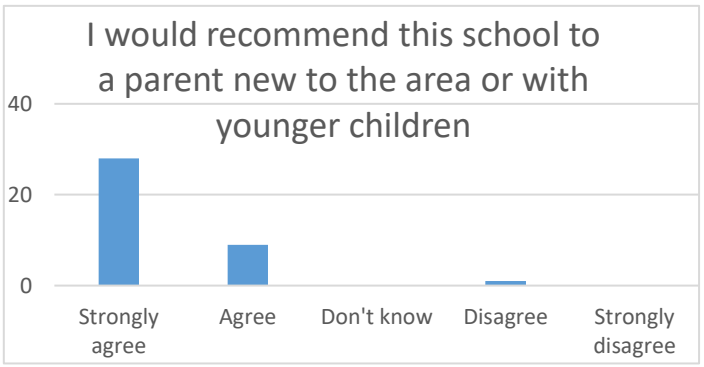

While the results were very positive and highly encouraging, we are keen to address any concerns and to improve what we offer and

how we communicate with you. From the results, we believe we can do more to clarify the expectations we have for your children, as 11% of respondents felt they did not know enough about this. We also believe there is more we can do to tell you about how we cater for your child's personal development. And we will keep a close eye on behaviours, and are planning to providing guidance on anti-bullying.

With a total of 38 responses, the areas we have identified for improvement are often based on the responses of just three or four parents. We take everyone's view seriously, and if you would like to talk to me about any concerns you have, please get in touch. Overall, however, the results are reassuring and a real testament to the dedication and ability of the staff and to the positive attitudes the children bring to their learning. An excellent 98% of respondents agreed or strongly agreed that they would recommend the school to another parent new to the area or with younger children. We are proud and very pleased to hear such positive feelings about the school, but of course, we are looking to achieve 100% next time round!
