

Class: Otters / Yr1 & 2
Spring Term 2026

Broughton Bitesize

What your children are learning this term.

Computing

By experimenting with different tools and colours, we will discover how digital images can be used to tell stories, share ideas and show creativity. This will help us understand the many ways images are used in the digital world and give us the skills to design our own.

UN article 16: Protection of privacy

PE

In PE next term, we'll be starting a dance unit. We will learn to move to music, explore different ways of expressing ourselves through movement and work together to create simple routines.

UN article 24: Health

RE

We will explore how Hindus come together to worship, celebrate festivals and support one another.

UN article 13: Sharing thoughts freely

English

Next term, we'll be diving into '*The Lion and the Mouse'*. Just as the little mouse showed that even the smallest can achieve something great, we are learning that every word, sentence, and story we write helps us grow stronger in English. The lion needed the mouse, and we also need practice, creativity, and teamwork to become confident writers.

UN article 28: Right to education

Maths

We'll be focusing on *Place Value and Number*. We'll be building a strong understanding of numbers: how they are made, how to count, compare, and order them, and what each digit means. This will give us a solid foundation for all our future maths learning and help boost our confidence with numbers right from the start. Year 2 will also be counting to and from 100 and revisiting their number bonds to 20.

UN article 28: Right to education

Science

Our topic will be '*Materials and Their Properties'*. We'll be exploring different types of materials, such as wood, metal, plastic, and fabric, and investigating their properties like flexibility, strength, and waterproofing. Through hands-on experiments and observations, we'll learn why certain materials are chosen for specific purposes.

UN article 28: Right to education

History

Our history learning journey is focused on the topic of queens. We will explore the lives of different queens from the past and learn about the important roles they played in shaping history. By looking at their stories, we will discover how queens lived, the challenges they faced, and the contributions they made to their countries.

UN article 28: Right to education

Music

Our music journey is like diving under the sea, where each musical symbol is a new discovery. Just as we find shells, fish, and waves in the ocean, we find notes, rests, and patterns in music.

UN article 29: Aims of education

Art

Our art learning journey is inspired by the beauty of nature and the patterns found in textiles. In nature, we observe leaves, flowers, and other natural forms, while in textiles we notice different textures and designs.

UN article 29: Aims of education

PSHE (Scarf)

'Keeping safe'. We will learn how to make good choices that protect ourselves and others, both in school and in the wider world.

UN article 3: Best interests of the child.
